L011: Percentage change and reverse percentages

F1

Tomorrow find 15% of 120 and $\frac{2}{3}$ of 45.

F2

Before L011, a £50 price rises by 10%. Find the rise and the new price.

Read before the next lesson

For a percentage increase, retain 100% and add the change. A 10% rise uses multiplier 1.10; a 10% fall uses 0.90. Recovering an original amount reverses this multiplier.

Bring your methods and one question. Retry F1 in one week.
