L013: Ratio and sharing

F1

Tomorrow calculate $(2/3) \div (4/9)$ and find 20% of 75.

F2

Before L013, simplify $12/18$ and explain what the fraction compares.

Read before the next lesson

Ratio a:b compares the first quantity with the second in that order. To share £50 in the ratio 2:3, there are five equal parts. Each part is £10, so the shares are £20 and £30.

Bring your methods and one question. Retry F1 in one week.
