L021: Formulae and rearranging

F1

Tomorrow find visits for a £5 fee plus £4 per visit totalling £29.

F2

Before L021, in $C=3n+4$, explain which letter is already the subject.

Read before the next lesson

A formula links quantities. The subject is the letter isolated on one side. To make n the subject of $C=3n+4$, subtract 4 from both sides then divide by 3: $n=(C-4)/3$.

Bring your methods and one question. Retry F1 in one week.
