L027: Congruence and geometric reasoning

F1

Tomorrow find the interior sum of a nonagon.

F2

Before L027, explain whether triangles with sides 3,4,5 cm and 6,8,10 cm have the same size.

Read before the next lesson

Congruent figures have the same shape and size. Corresponding sides and angles match even when one figure is rotated or reflected. Triangle congruence needs sufficient measurements.

Bring your methods and one question. Retry F1 in one week.
