L033: Perimeter and compound area

F1

Tomorrow reverse 155° and reflect (4,3) in $x=1$.

F2

Before L033, find perimeter and area of a 6 cm by 4 cm rectangle.

Read before the next lesson

Perimeter measures a boundary in length units; area measures surface coverage in square units. A compound shape can be partitioned into familiar shapes without overlaps or gaps.

Bring your methods and one question. Retry F1 in one week.
