L034: Circles arcs and sectors

F1

Tomorrow find triangle area for base 12 cm and height 5 cm.

F2

Before L034, a circle has radius 4 cm. Find diameter and explain the relationship.

Read before the next lesson

A circle circumference is $2\pi r$ and area is πr^2 . An arc or sector represents a fraction of the whole circle determined by its central angle divided by 360° .

Bring your methods and one question. Retry F1 in one week.
