Complete without notes after the lesson or for independent consolidation. This original classroom test is separate from the six-item workbook retrieval quiz.

1 Name Parsons's two specialised functions. [2]

2 Explain functional fit using mobility. [3]

3 Name the term for status attributed to attainment. [1]

Evidence and application

Fictional case: The Arden household moves to a manufacturing town for two adults' jobs. A grandparent in another town provides advice and occasional childcare. The adults share earning and emotional support. They teach their child routines, while a local school teaches additional skills. The case illustrates possible mechanisms; it is not a historical survey or evidence of what most families do.

4 Explain two complications in the Arden case for a simple Parsons model. [4]

5 Why do pre-industrial nuclear households matter? [2]

6 Explain why a household record cannot establish the absence of wider kin support. [3]

After marking

Score ____ / 15. Correct your least secure idea and explain it again tomorrow. This diagnostic score is not a predicted grade.
